

# Mergence Enhanced Index Fund

May 2023

## Investment objective

The Fund aims to provide broad exposure to the South African equity market and generate capital growth over the long term. The Fund invests in a diversified selection of South African equities, derivatives, cash & money market instruments. Using quantitative and systematic techniques, we minimize the Fund's tracking error to the Capped SWIX to mitigate significant deviations from the benchmark index along key risk dimensions.

A pragmatic approach to investing underpins our investment philosophy. We believe that the best approach to broad market diversification is to use an enhanced equity approach. The advantage of an enhanced equity approach is the ability to use modest enhancements to offset transaction costs and investment management fees, increasing the probability of producing performance that mirrors a market index net of costs. The capital efficient structure of the fund increases portfolio diversification, liquidity and flexibility.

\*\* Inception date 19 March 2021

## Equity risk profile

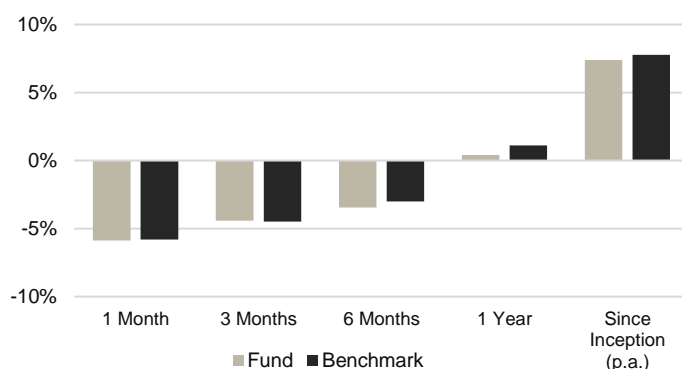

## Investor profile

The Fund is suitable for investors:

- who seek specialist South African equity exposure as part of their overall investment strategy;
- who believe long term equity exposure adds value;
- who know the nature of equity exposure, in that there is entry risk and the potential of capital loss.
